## SEMESTER 1

### **PTED 71000- Human Anatomy 1 (2)**

exploration of gross human anatomy, specifically

therapeutic interventions, students will also refine

alongside refining the documentation of these

### **PTED 71600- Movement Science 1 (2)**

### **PTED 71100- Human Physiology (3)**

inflammation, and the function of integumentary,

### **PTED 71700- Professional Topics in**

### **PTED 71300- Fundamental Skills in Physical Therapy Practice (2)**

and International Classification of Functioning,

their communication skills as a clinician specifically

### **PTED 71900- Evidence-Informed Practice 1 (2)**

synthesis, hypothesis generation, reflective practice,

### **PTED 71301- Fundamental Skills in Physical**

Client Management and the International Classification

## SEMESTER 2

### **PTED 72000- Human Anatomy 2 (2)**

exploration of gross human anatomy, specifically on

### **PTED 72100- Musculoskeletal 1 (2)**

This course is the first of a three-course series of

management model, the International Classification

## SEMESTER 3

PTED 73000- Pharmacology (2)

PTED 73100- Musculoskeletal 2 (2)

(1)

**PTED 74700- Cardiovascular & Pulmonary Physical Therapy (2)**

client management and International Classification

**PTED 74701- Cardiovascular &**

and International Classification of Functioning,

and clinical laboratory data to add

a

o add

**PTED 75500- Medically Complex Patient  
Management (2)**

**PTED 76500- Integrated Patient  
Management (1)**

examination findings, formulate accurate diagnoses,

## SEMESTER 8

### **PTED 78000- Clinical Education 4 (8)**

they have sufficient opportunities to apply the skills

### **PTED 78900- Doctoral Capstone Project (1)**
